polavarapugokul@gmail.com — [+91-6300405040](tel:+91-6300405040) — LinkedIn - [P Gokul Sree Chandra](#) — GitHub - [GokulAIx](#)

EDUCATION

- **Gandhi Institute of Technology and Management (GITAM)** Visakhapatnam, India
Bachelor of Technology in Computer Science and Engineering (3rd Year) August 2023 - Present

TECHNICAL SKILLS

- **Programming Languages** Python, SQL (MySQL, SQLite) – Joins, Subqueries, Window Functions, Indexing, Query Optimization.
- **Libraries/Frameworks** PyTorch, Scikit-learn, Numpy, Pandas (Data Cleaning), NLTK, Sentence Transformers, Flask, Matplotlib, Seaborn.
- **Machine Learning** Supervised Learning (Linear/Logistic Regression), Regularization (L1 & L2), Feature Engineering, Linear Algebra, Probability, Statistics, Data Preprocessing (Normalization, Standardization, Missing Data Handling).
- **Deep Learning** Transformer Architecture, Encoder - Decoder , Fine-Tuning, Sampling Strategies, Neural network architectures, activation functions, loss functions, optimization using PyTorch.
- **Natural Language Processing** Tokenization, Bag of Words, TF-IDF, Stemming, Lemmatization using NLTK, Sentence Transformers (Embedding Generation).

EXPERIENCE

- **Young Compete - Technical Internship (Full Time)** July 2024 - January 2025
Head Of Operations Remote, India
 - Developed 3+ tech projects, including Prof Connect, enabling streamlined networking for 1,500+ students and teachers.
 - Automated data scraping from 5 sources for the off-campus placements page, utilizing APIs, and improved access rate by 30%.
 - Led a team of 10 members to deliver technical solutions , focusing on engagement and community building.

PROJECTS

- **1. Sentiment Analysis on IMDB Dataset using Transfer Learning**
 - Utilized the pre-trained Sentence-Transformer model ([all-MiniLM-L6-v2](#)) to generate sentence embeddings and built a fully connected neural network classifier in PyTorch to predict sentiment labels (positive/negative).
 - Processed 50,000 reviews from the IMDB dataset and achieved 80.24% accuracy on the test set, demonstrating the effectiveness of transfer learning in sentiment classification.
 - Technologies used: Python, PyTorch, Sentence-Transformers.
 - **Live Demo:** [Streamlit App](#) — GitHub: [Repo](#)
- **2. SkillCheck – AI-Based Skills Evaluator:**
 - Developed a Flask-based web application utilizing Groq API to evaluate user skills and improve learning outcomes.
 - Integrated a Large Language Model (LLM) via Groq API, providing personalized AI-driven feedback that enabled learners to check where they went wrong , 100% of the time and correct their errors.
 - Used Flask for backend, Pandas for data preprocessing, and Groq API for LLM integration.
 - [GitHub Link](#) [Demo Video](#)

CO-CURRICULAR ACTIVITIES

- Participated in GDG (Google Developer Group) WOW 2025 Hackathon — built backend API for “Mama – Mind,” an AI app for pregnant women with ChatGPT support.
- Organized 6+ ”GAAC-MasterClasses” for Gitam Aero Astro Club (affiliated with MIT, Boston), achieving 60+ attendees per session, focusing on technical education and aerospace topics.
- Competed in national-level events like IIT Kanpur’s Techkriti (Maneuver Bot, Astro Quiz) and ISRO’s Bharatiya Antariksh Hackathon (Lunar Crater Locator), among 50+ teams.
- Secured 2 nd place in the hackathon CODEX (for my SkillCheck Project) conducted by Young Compete.
